

1

What Are Human Senses?

We have **five** special **senses** that help us know and understand the world around us.

Sight

Hearing

Smell

Taste

Touch

Each sense is important.
They work together every day!

2

Sight

We use our **eyes** to see things.

Our eyes help us to:

- see colours
- read books
- see our friends
- see animals and things around us.

Fun Fact!

Our eyes can see millions of colours!

Examples

Rainbow

Books

Animals

Flowers

3

Hearing

We use our **ears** to hear sounds.

Our ears help us to hear:

- people talking
- music
- birds singing
- rain
- many other sounds.

Teacher talking

Birds singing

Music

Rain

Tip!

Let's keep our ears safe.
Do not listen to very loud sounds.

Smell

We use our **nose** to smell things.

Our nose can detect many different smells around us.

Examples

Flowers

Sweet and nice smell.

Pizza

Yummy and delicious smell.

Cookies

Sweet and tasty smell.

Perfume

Nice and beautiful smell.

Rain

Fresh and clean smell.

Did You Know?

Our nose can smell thousands of different smells!

Tip!

Keep your nose clean.
Do not put anything inside your nose.

Taste

We use our **tongue** to taste different kinds of food and drinks.

Yummy!

Our tongue can taste **five** basic tastes.

Sweet

Tastes like sugar.

Examples:

candy, cake, chocolate

Sour

Tastes a little sharp or tangy.

Examples:

lemon, orange, green apple

Salty

Tastes salty like salt.

Examples:

chips, cheese, pretzels

Bitter

Tastes not sweet, not nice.

Examples:

coffee, bitter gourd, spinach

Spicy

Tastes hot and spicy.

Examples:

chili, spicy soup, curry

★ Did You Know?

Our tongue has tiny bumps called **taste buds**. They help us taste delicious food!

Tip!

Eat healthy food. It keeps your tongue and body strong and happy!

Touch

We use our **skin** to feel things around us.

Our skin helps us know if something is soft or hard, hot or cold, wet or dry.

Examples

Soft

like a teddy bear

Hard

like a rock

Hot

like a warm cup

Cold

like ice

Wet

like water

Dry

like a towel

Tip!

Our skin is very important. It protects our body from getting hurt.

Taking Care of Our Senses

Let's take care of our five senses every day!

Eyes

Keep your eyes clean.

Do not look at screens for too long.

Ears

Do not put objects into your ears.
Listen to soft and nice sounds.

Nose

Keep your nose clean.

Do not pick your nose.

Tongue

Brush your teeth every day.

Eat healthy food.

Skin

Keep your skin clean.

Wash your hands with soap.

When we take care of our senses, our body stays healthy and we can enjoy the wonderful world around us!
